

行政摘要 Executive Summary

地盤平整評估

本報告的地盤平整工程研究以元朗南建議發展大綱圖為基礎。在報告中以現有的土地勘察資料闡述了地盤平整工程的設計考慮、研究的假設、岩土工程設計上限制和相應的地盤平整的解決方案。本報告指出，在岩土工程的角度，擬議的元朗南發展是可行的。

Site Formation Assessment

The proposed site formation scheme based on the RODP is presented in this report. Design considerations, assumptions, fill management, geotechnical constraints and corresponding solutions for site formation works are also presented in this report with the consideration of available ground investigation information. It is considered that the proposed development in the YLS Development Area is geotechnically feasible.
